

Another benefit of being a member of the Tuscarawas Chamber of Commerce.

DataRiskStages BreachResponse.com

Enhanced breach protection and response resource provides your business powerful, unique risk and cost mitigation tools

A Special Offer For Our Employer Members!

Our small and mid-size business members are especially vulnerable to data theft. Organizations with limited security budgets, or that lack technical or legal expertise struggle with how to adequately protect company and customer data against threats while keeping up with everything else on their plate. Most would appreciate professional support, but they don't know where to turn.

Tuscarawas Chamber of Commerce is offering **free breach protection for six months** to employer members who offer identity theft protection to their employees as a voluntary benefit. This will deliver trusted, reliable breach avoidance and response services to all of our business customers. Data theft is big business for cyber criminals. The information of nearly a third of the U.S. population—roughly 110 million people—may have been compromised in 2014 alone. And the costs to the world economy are estimated in the hundreds of billions of dollars.

A Useful Voluntary Benefit For Your Employees Protection

FraudScout to offer your employees an integrated platform that goes beyond simple credit monitoring to provide comprehensive fraud, credit, Internet and card monitoring services coupled with 24/7 dedicated support.

LifeStages to provide your employees the personalized protection they need that includes proactive education, risk-reduction strategies, identity theft protection, privacy management and unlimited 24/7 resolution support to help fight identity theft and fraud.

Some of the key Data Breach Benefits Include:

- Data risk and breach awareness resources to help reduce risk and breach threats
- Incident response planning tools to offer helpful templates and guidance
- Breach event remediation services to provide trusted, reliable leadership at every step

For more specifics on the benefits of this free offer, contact Rick Pipes directly at 330-339-6413 or rick@pipesins.com
